

Nook Lane Junior School

Menu starts on week two

Good News ...Your school is introducing a new School Meal Pre-Ordering System!!

What is it?

- A system to ensure that your child receives the meal of their choice every day

How it works....

- You will receive a copy of the school menu to share with your child
- The school menu will be colour banded – each line of the menu will be identified with a different colour
- At morning registration each day your child will be asked by their class teacher which meal they would like to order
- By pre ordering your child's meal the Cook will know exactly how many portions of each meal to cook

- Before lunch your child will be given a coloured wristband that matches the line on the menu
- Your child will queue up for lunch as normal, and give the Cook their wristband – the Cook will know by the colour band which meal they have ordered

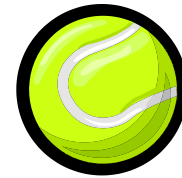

Advantages of a School Meal Pre-order System.....

No more worries about your child being on last sitting and meal choices running out - your child will have the meal they have chosen whichever sitting they are on..

Your child will receive the meal of their choice every day

Your child can take part in lunchtime activities and still know that their lunch will be there for them..

A pre order system gives your child more responsibility for their own meal choices, teaching them how important decision making is!

A calm dining room with happy children

Confidence that you're getting what you've paid for...

Reassurance that your child is going to have a healthy, balanced, nutritious, two course meal every day

Good Value For Money!
